INTERNATIONAL PRE-SCHOOL

AN ISO 9001:2000 CERTIFIED INSTITUTION

An International Kids Education
in an Indian way...

Vision

Kids education of International standard at an affordable cost.

Mission

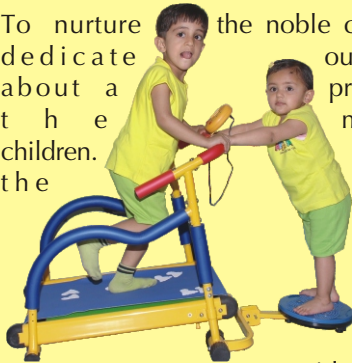

All children are capable to acquire quality education. We at Apple Kids provide a perfect blend of International standard education in an Indian way.

Institution

Ours is a leading kids education institution in India. Our concept and the philosophy have emanated from our deep sense of love and affection for the little angels of our country. To cherish the tenderness of the child's development in the early years is, of course, essential to achieve the vision of India by 2020 as envisaged by our beloved president, Dr. A.P.J. Abdulkalam.

To nurture the noble cause above, we dedicate ourselves to bring process-change in the mental growth of children. Wetherefore, with support of eminent psychologists and scholars from various walks of life, provide in an Indian way an innovative system of kids education at par with the International standard.

Philosophy

Our philosophy is unique. It is based on certain principles.

facilitates harmonious ment of young minds.

Children need to be nurtured in an atmosphere of love and affection, which alone develop them learn with great joy through play and provide recreational activities to channel the child's exuberant energy and to kindle their thought process.

To bring out their inherent qualities and to broaden their intellectual horizons, we need an innovative methodology. Good habits, social manners and etiquettes can be inculcated only by proper training. Their inquisitive mind can be developed only through creative activities.

Prepare them to face the challenges of tomorrow.

Curriculum

The curriculum has been designed for the all-round development of the child, taking into account their cognitive, physical, social, emotional and sensorial abilities. Children learn in an eco-friendly environment in consonance with an innovative methodology specially evolved by us. The entire curriculum encompasses highly systematic and step-by-step procedures ensuring learning by doing.

Staff

We have a team of well experienced, fully equipped, trained and highly dedicated staff members with utmost care in the holistic development of children.
